WEEE Compliance

DEIF A/S (herein after DEIF) is a company that views social responsibility as an important issue. In our supply chain we are committed only to source materials and components from suppliers who respect human rights, who conduct their business in an ethically sound way, and who have an environmental mind-set.

LEGISLATIVE REQUIREMENTS FOR SCRAPPING OF ELECTRONICS

- 1) DEIF products manufactured on 13 August 2005 or hereafter must be marked with the waste bin symbol. This symbol indicates that DEIF is committed to becoming prepared for the law-required handling of WEEE no later than 1 April 2006.

- 2) The marking must also identify DEIF – either by name, logo or otherwise.
- 3) DEIF devices apply to the WEEE Directive 2012/19/EU, and DEIF reports once a year to each country's national WEEE register.
- 4) DEIF products purchased under private label are also comprised by the WEEE Directive, because all imported products and other products bearing the DEIF brand are the liability of DEIF.
- 5) DEIF has no obligation to take back DEIF products (so-called "historical WEEE") manufactured prior to 13 August 2005 when they are decommissioned, unless the customer at the time of decommissioning buys a new similar unit for direct replacement of the decommissioned old unit.

If you have questions regarding the WEEE Directive, do not hesitate to contact DEIF A/S headquarters at info@deif.com or Tel. +45 96149614.

Best Regards,
DEIF A/S

Chanette Nyrup Oksborg
Senior VP, Operation & Supply Chain
