The CSQ-3 integrates synchroscope and check synchronising relay into a microprocessor-controlled, easy-to-install solution.

The CSQ-3 unit is operated from the front using push-buttons behind the removable front cover, protecting users from the near hazardous voltages during set point programming: an innovative DEIF feature usually seen in similar products where switchboards have to be opened to operate the synchroscope.

**Check Synchronising Relay, CSQ-3**

Safe, simple & precise multi-function synchroscopes

---

The CSQ-3 integrates synchroscope and check synchronising relay into a microprocessor-controlled, easy-to-install solution.

The CSQ-3 unit is operated from the front using push-buttons behind the removable front cover, protecting users from the near hazardous voltages during set point programming: an innovative DEIF feature usually seen in similar products where switchboards have to be opened to operate the synchroscope.

### CSQ-3 features
- Multi-function precision LED synchroscope
- Easy push-button programming of all set points
- Very high user safety
- High immunity to harmonic distortion
- Dead-bus functionality
- Voltage measurement
- Frequency matching
- Phase angle comparison

### CSQ-3 type approvals
