

Pointer Frequency Meter, FQ

Convert frequency to analogue readings

With high immunity to 3rd harmonics, DEIF Pointer frequency meter is suitable for all applications. The moving coil instrument features integrated electronics for converting frequency into analogue readings with accurate and linear readouts on an exchangeable scale

FQ features

- ▶ Accuracy class: 0.5
- ▶ 90° pointer deflection
- ▶ Available in sizes Q72 and Q96

FQ type approval
