

# Frequency relay

Protect your generator against under- & over-frequency

---

## RMF-112D features

- ▶ Combined under-frequency/over-frequency
- ▶ For 1- and 3-phase networks
- ▶ LED indication of fault condition
- ▶ Timer-controlled tripping
- ▶ LED indication for activated relay
- ▶ 35 mm DIN rail or base mounting

The digital RMF unit is part of DEIF's complete range of relays for generator protection and control.

Applied for protection against under-frequency and over-frequency by supervising the frequency (of generators) in single-phase and 3-phase networks, RMF is applicable for installations with a number of adjustable parameters.
