

Reverse Power Relay, RMP-121D

Protect your prime mover against reverse power

DEIF's RMP-121D is a protective reverse power relay for generator and prime mover protection.

Protection against overload is crucial in setups where the prime mover is under-dimensioned in proportion to the AC generator.

The versatile unit features a number of adjustable parameters.

RMP-121D features

- ▶ Generator and prime mover protection
- ▶ ANSI code 32
- ▶ 3-phase measurement
- ▶ LED indication of alarm condition
- ▶ Timer-controlled tripping
- ▶ LED indication for activated relay
- ▶ 35 mm DIN rail or base mounting
