

# Protection Transformer, SASK

Protection transformer for cables & busbar

---

## SASK features

- ▶ Primary current: 50 to 1,600 A
- ▶ Secondary current: 5 or 1 A
- ▶ Accuracy class/protection class: 5P4 – 5P5 – 5P10 – 10P5 – 10P10

Part of DEIF's current transformer range, the protection transformers are used for over-current and earth fault protection in balanced protection systems.

DEIF offers 14 different physical sizes of the protection transformers.

The housing of the transformers is made of impact-resistant thermoplastic to ensure a highly reliable quality. The terminals of the transformers are protected by a cover.

In order to ensure short delivery time, we keep an extensive programme of transformers in stock.
