To whom it may concern

REACH Compliance

DEIF A/S (herein after DEIF) is a company that views social responsibility as an important issue. In our supply chain we are committed only to source materials and components from suppliers who respect human rights, who conduct their business in an ethically sound way, and who have an environmental mind-set.

The REACH Directive (Registration, Evaluation, Authorisation and Restriction of Chemicals DIRECTIVE 2006/121/EC of the European Parliament and of the Council), requires that chemical substances of more than 1 ton per year on their own, in preparations and those which are intentionally released from articles to be registered.

A downstream user is any natural or legal person established within the Community, other than the manufacturer or the importer, who uses a substance, either on its own or in a preparation, in the course of his industrial or professional activities.

DEIF is a downstream user and import chemical substances below REACH scope. As long as the products of DEIF are not comprised by the REACH Directive, it is therefore our decision, not to implement the designations of the directive all as one. DEIF is continuously monitoring the SVHC directive.

DEIF do however hereby confirm that we require all our suppliers to comply with the REACH Directive, and that they have been requested to confirm that they have performed pre-registration of all chemical substances.

If you have questions regarding the REACH Directive, do not hesitate to contact DEIF A/S headquarters at info@deif.com or Tel: +45 96149614.

Best Regards,
DEIF A/S

23/11 2017

Chanette Nyrup Oksborg
Senior VP, Operation & Supply Chain
